PROJECTS

Quiet Attic System | Database Management system

C# AND SQL DATABASE

A film production database tracks clients, their productions, locations, and associated properties like buildings and costumes. It streamlines information access and resource allocation for film projects.

Bus Reservation System

JAVASCRIPT

Essoft's bus reservation system allows online booking with credit cards, real-time seat selection, and secure data storage. It aims to improve user experience, conversion rates, and ROI for bus operators.

Grifindo Toys | Programming

C# AND SQL DATABASE

Grifindo Toys' payroll system automates salary calculations for 50 UK employees, tracking hours, deductions, and payment history. It ensures accurate, timely payments and improves efficiency.

Malcolm Lismore

HTML 5 and CSS

Malcolm, a Scottish freelance photographer, captures stunning landscapes, wildlife, and coastal birds. He also offers wedding, portrait, and event photography, showcasing his talent and love for Scotland's beauty.
